

SOLAR-POWERED BATTERY TRICKLE CHARGER

MODEL: SOL/03.01.0006

Feature

Trickle charge your battery with solar power, even on a cloudy day. Weatherproof, Maintenance free. Ideal for cars, caravans, boats, mobile phones, digital cameras etc.

Includes:

2W amorphous solar panel with 3.7 meter cable
LED test light
Crocodile clips for battery
Female vehicle cable
Bare cable interconnector

Technical Specification

Peak Power: **2 W**
Maximum Power Current (Im): 120 mA
Maximum Power Voltage (Vm): 17.7 V
Dimensions: 315 x 132 x 18 mm

MODEL: SOL/03.01.0009

Feature

Trickle charge your battery with solar power, even on a cloudy day. Weatherproof, Maintenance free. Ideal for cars, caravans, boats, mobile phones, digital cameras etc.

Includes:

2W amorphous solar panel with 3.7 meter cable
LED test light
Crocodile clips for battery
Female vehicle cable
Bare cable interconnector

Technical Specification

Peak Power: **2 W**
Maximum Power Current (Im): 150 mA
Maximum Power Voltage (Vm): 14 V
Dimensions: 254 x 184 x 18 mm

MODEL: SOL/03.01.0007

Feature

Trickle charge your battery with solar power, even on a cloudy day. Weatherproof, Maintenance free. Ideal for cars, caravans, boats, mobile phones, digital cameras etc.

Includes:

2W amorphous solar panel with 3.7 meter cable
LED test light
Crocodile clips for battery
Female vehicle cable
Bare cable interconnector

Technical Specification

Peak Power: **5 W**
Maximum Power Current (Im): 300 mA
Maximum Power Voltage (Vm): 17.7 V
Dimensions: 315 x 315 x 18 mm

To Use For

MODEL: SOL/03.01.0010

Feature

Trickle charge your battery with solar power, even on a cloudy day
 Weatherproof, Maintenance free
 Ideal for cars, caravans, boats, mobile phones, digital cameras etc.
 Interchangeable connectors: cigarette lighter plug and crocodile clips
 Durable ABS outer casing
 Built-in diode prevents reverse charging

Includes:

5W amorphous solar panel with 2.7 meter wire
 4 pre cut holes for easy installation
 4 stainless steel screws
 Cigarette lighter 12V DC plug
 Crocodile clips for battery
 LED test light

Technical Specification:

Peak Power: **5 W**
 Maximum Power Current (Im): 260 mA
 Maximum Power Voltage (Vm): 19.4 V
 Dimensions: 35 x 33.6 x 1.5 mm

MODEL: SOL/03.01.0008

Feature

Trickle charge your battery with solar power, even on a cloudy day.
 Weatherproof, Maintenance free. Ideal for cars, caravans, boats, mobile phones, digital cameras etc.

Includes:

15W amorphous solar panel with 3.7 meter cable
 LED test light
 Crocodile clips for battery
 Female vehicle cable + Bare cable interconnector

Technical Specification

Peak Power: **15 W**
 Maximum Power Current (Im): 900 mA
 Maximum Power Voltage (Vm): 17.7 V
 Dimensions: 315 x 925 x 18 mm
